HOBOconnect Monitoring App

Using the free HOBOconnect Monitoring App, newly redesigned to streamline user experience, you can configure HOBO MX Series data loggers and manage your collected data. Download the app from the Apple App Store or Google Play to your mobile device, or download from Onset's website (https://www.onsetcomp.com) to your Windows computer.

Features:

- No internet connection needed
- Supports the following languages: Spanish, French, Traditional/Simplified Chinese, Korean, and Japanese
- Bluetooth communication to all HOBO MX Bluetooth data loggers
- Data can be exported and shared as CSV, XLSX, or HOBO files
- Page the data logger to download and view data quickly
- Customizable logger settings and alarms
- Uploads data to HOBOlink automatically to store and merge data files
- Audible alarms can be configured and cleared
- Choose from light and dark color modes
